Trail Etiquette

- Be mindful of other users. Paths are designed for low-speed use (<15 mph). Motor vehicles, powered scooters and horses are not allowed. Stay to the right when using the path. Pass on the left and let others know you are there with an audible call out or ring a bike bell. Remember bicyclists and E-Bike users may be approaching from behind.
- When bicycle riding use hand signals to change lanes, turn or stop. Yield to pedestrians at intersections, sidewalks and trails. All path users to yield to people with disabilities. Do not block path with and extended leash. Do not block path with and extended leash. Do not block path with and extended leash. Do not block path with and extended leash.
- At road intersections, make sure motorists see you before you enter traffic. Make eye contact. Give a friendly wave when they stop.

Safety Tips for Bicyclists

- Obey all signs, lane markings and traffic control devices. Always ride in the same direction as traffic. Avoid weaving around or riding too closely to parked cars. Riding predictably increases safety for all roadway and trail users.
- Remain aware of your surroundings. Using earbuds, earphones or a cell phone while riding can be dangerous.
- Stand on your pedals and cross railroad tracks at a 90 degree angle. Tracks can be slippery when wet. Ride around storm and sewer grates.
- Look left before crossing intersections and change lanes to pedestrians in all downtown and business districts.
- Night riding on the Greenway is not recommended. White lights in front and a red light or red reflector in the back.
- Shannon markings (downstream only) indicate where bicyclists can share traffic lanes with vehicles.
- Marked underpasses are in flood prone areas and may be hazardous after inclement weather. USE AT YOUR OWN RISK!
